MOHAMMED GHOUSE MOINUDDIN

ML Engineer • Generative AI Engineer • Full-Stack Developer

+91 9032018682 | ghousemoinuddin118@gmail.com | Linkedin/Mohammed Ghouse Moinuddin | github/GhouseMoiniddin

PROFESSIONAL SUMMARY

Final-year B.Tech (EEE) student and Full-Stack MERN Developer with hands-on experience in AI/ML systems, Generative AI integration, and scalable web application development. Proven ability to build end-to-end products — from computer vision models to real-time web dashboards. Actively targeting SDE, ML Engineer, and Gen-AI roles at product-based companies. Experienced in Agile development, REST API design, and cloud deployment. Strong foundation in DSA, OOP, and system design for product-based company interviews.

INTERNSHIP

Software Developer Intern — *JUL-AUG 2025*

cognifyz Technologies

- Developed responsive and interactive web applications using modern front-end and back-end technologies, ensuring cross-browser compatibility, mobile responsiveness, and an enhanced user experience
- Strengthened practical software-development skills through independent project execution, documentation, and self-directed problem solving in a remote work environment.

Project Analyst Intern — *SEP-OCT 2025*

Anurag University

- Analyzed requirements and workflows for Smart Traffic Light Management and Smart Home Energy Management systems, Conducted research on smart-system architectures, automation approaches, and real-world applications for traffic and energy optimization.
- Analyzed project data, system inputs, and expected outputs to identify opportunities for improving traffic flow and energy efficiency, Contributed to system workflow design, requirement documentation, and project analysis throughout the development lifecycle.

TECHNICAL SKILLS

Languages	Java, Python, JavaScript, CPP, TypeScript
Gen AI/ML	LangChain, OpenAI API, RAG Systems, Prompt Engineering, Scikit-learn, PyTorch (learning), HuggingFace, Vector Databases (learning)
Frontend	HTML, CSS, TailwindCSS, React.js, Next.js
Backend	Node.js, Express.js, REST APIs, JWT, WebSockets, Socket.io
Databases	MongoDB, Firebase, PostgreSQL, Redis
Cloud & DevOps	AWS (learning), Docker (learning), GitHub Actions, CI/CD
Tools	Git, GitHub, VS Code, Figma, Postman, Hoppscotch
Core Concepts	Data Structures & Algorithms, OOP, RESTful Architecture, Agile/Scrum, System Design Basics

PROJECTS

AI - Based Grass Cutting EV Mowerbot | *MERN, Computer Vision* — *Dec 2025*

- Developed an AI-based grass mower robot capable of autonomous navigation using computer vision and obstacle detection, achieving 90%+ detection accuracy across varied terrain conditions
- Designed a real-time MERN stack dashboard with WebSocket-based live telemetry for monitoring and control; built autonomous path-planning system reducing manual operation effort by ~60% in large outdoor environments. Integrated remote operation with voice and gesture-based control hooks.

TaskStreak - Task Tracker | *React.js, Node.js, Express.js, MongoDB* — *Feb 2026*

- Developed a full-stack task management application with RESTful APIs and MongoDB, enabling users to create, organize, prioritize, and track daily tasks with real-time sync across sessions via WebSockets
- Implemented JWT-based authentication with secure session management, ensuring scalability and seamless user experience with sub-500ms data refresh and 99.9% uptime across all active sessions.

EXTRA CURRICULAR & ACHIEVEMENTS

Winner, Tejas-2026 — Feb 2026

- 4th Prize winner in the National-Level Competition Tejas-2026,

Tech Lead (HIVE) — 2025-2026

- Served as Tech Lead for own project team within HIVE, providing technical guidance and mentorship to other departmental teams across events, workshops, and hackathons.

EDUCATION

Bachelor of Technology (B.Tech) in EEE — 2023-2027

Anurag University | CGPA: 7.67 / 10 | Highest SGPA: 9.1 / 10

Higher Secondary School (HSC) & Secondary School (SSC) — 2020-2022

Telangana Minorities Residential school & Jr.College | HSC: 78.6%, SSC: 93.10%

CERTIFICATIONS

LLM Engineering
Udemy — Ed Donner

AI Upskilling: Technical Foundation
Qualcomm Academy

Full Stack Web Development
Apna College — Shradha Khapra

100 Days Python Pro Bootcamp
Udemy — Dr. Angela Yu
